CHITKARA UNIVERSITY

FORMATIVE ASSESSMENT-4

PROJECT DETAILS

Group Name	CEC (Group 10)	
Project Title	Chitkara Esports Club Website	
Team Leader	Vinayak Singla, Agamjot Singh	
Details of Work division	Student/rollno	Work / Role Allotted
	Vinayak Singla 2110991540	Html, CSS, Bootstrap Video Gallery, Image Gallery, Header, Footer, Dashboard, Our partners, our team, GIT and more
	Agamjot Singh 2110991622	Html, CSS, JS, UI/UX, Graphics Landing Page, Registration Forms, Contact Us Page, Login/Signup, 2048 Game, Git Management and more
High level Approach to be followed: • Share the details in points	• Project allows the user to Register for tournaments hosted by the Chitkara Esports Club. • View Past Tournaments • Get information regarding current and future events • 'Contact Us' page for assistance and collaborations.	
Lower level Approach to be followed: • Share the details in points	• Through this project, we aim to provide a way to get information regarding all the activities of Chitkara Esports Club. • To provide a platform for members to interact with other members, admins of CEC and our gaming community spread all over the campus of Chitkara. This platform also serves as a means for us to host various other online tournaments and events.	

Advantage of the project with applicability: ==Highlight the unique feature(s) of the project if any==	**Used GIT/Github for Project Management** ❖ The field of project management is interconnected with being productive. Through proper utilization of resources and having an efficient system in place, a project team can easily get more work done in a organized manner ❖ A follow up progression starting from the scratch of Project being uploaded on Github. ❖ Trackable changes - When multiple users make changes then it becomes hard to keep a track of the project. Here github comes into the play which can help us to track even the slightest change being made in the project. **Easy To Use** ❖ Helps a user to understand the project through the means of images rather than plain text. ❖ Obvious Local Navigation with clear hierarchy ❖ Easy To make changes and update it regularly for admins

Schedule for implementing the use case: ● Share the Tentative Date of Completion of Expected Deliverables	Deliverable	Time Taken
	Team Creation and project determination	3 days
	Basic Layout Design and planning	7 days
